TRANSMITTING

REQUESTS FOR FY 1999 SUPPLEMENTAL APPROPRIATIONS TO AD-  
DRESS URGENT FUNDING NEEDS RELATED TO THE SITUATION  
IN JORDAN

FEBRUARY 23, 1999.—Referred to the Committee on Appropriations and  
ordered to be printed

---

U.S. GOVERNMENT PRINTING OFFICE

THE WHITE HOUSE,  
Washington, February 19, 1999.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

SIR: I ask the Congress to consider the enclosed requests for FY 1999 supplemental appropriations to address urgent funding needs related to the situation in Jordan. The proposals, including requests for supplemental and advance appropriations, total \$100 million for FY 1999, \$100 million for FY 2000, and \$100 million for FY 2001, and affect the Departments of Defense and State and the United States Agency for International Development.

These requests for Jordan were previously transmitted to the Congress with my budget on February 1, 1999, as part of the supplementals proposed in support of the Wye River Memorandum. Since the transmittal of the budget and the recent death of King Hussein, bolstering Jordan's stability has become a more urgent U.S. priority. As a result, I ask the Congress, by the end of March, to provide the \$300 million in supplemental assistance to Jordan.

America has a major national interest in helping promote stability in Jordan during the current transition. Under King Hussein's leadership, Jordan has been a key partner in the Middle East peace process. The United States is leading a broad international effort to support Jordan, which includes efforts by the Gulf countries and our G-7 and European Union partners. Prompt U.S. financial support for Jordan's economic and military requirements is essential to help promote stability in Jordan and the region during this period of transition and to help maintain U.S. diplomatic leadership in the Middle East.

The Budget proposed offsets for the Wye River Memorandum supplemental requests, and I urge the Congress to consider those offsets for the Jordan portion contained in this transmittal. It is important that we work together on an acceptable package of offsets so that this legislation can move forward speedily. This legislation includes the following requests for FY 1999:

*International Assistance Programs*

- International Security Assistance, Economic Support Fund: \$50,000,000.
- International Security Assistance, Foreign Military Financing Program: \$50,000,000.

I hereby designate the above FY 1999 requests for Jordan as emergency requirements pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

The details of these requests are set forth in the enclosed letter from the Director of the Office of Management and Budget. I concur with his comments and observations.

Sincerely,

WILLIAM J. CLINTON.

Enclosure.

Estimate No. 7  
106th Congress, 1st Session

EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT AND BUDGET  
WASHINGTON, D.C. 20503

February 19, 1999

THE DIRECTOR

The President

The White House

Submitted for your consideration are requests for FY 1999 supplemental and advance appropriations that would provide assistance to Jordan during a critical transition period. These requests were previously made as part of the supplementals proposed in support of the Wye River Memorandum and transmitted with your budget on February 1, 1999. Through this action, we request that Congress complete action on Jordan prior to the end of March.

Your budget proposed offsets for the Wye River Memorandum supplemental requests, and we will urge the Congress to consider those offsets for the Jordan portion contained in this transmittal. The Administration will work with the Congress on an acceptable package of offsets so that this legislation can move forward speedily.

The requested amounts for Jordan, totaling \$300 million, fund the following activities:

Economic Assistance

A total of \$100 million in appropriations -- \$50 million in FY 1999 and \$50 million in FY 2000 -- is requested to fund water resources development, social safety net assistance, balance of payments support, and other activities. All of these efforts will help stabilize the Jordanian economy, which has faced a severe downturn in recent years. Renewed growth of the Jordanian economy is critical to a smooth transition of leadership. The balance of payments support, in particular, will help the Jordanian government meet its external debt servicing requirements as it pursues a comprehensive structural economic reform program. The other economic assistance efforts will help increase funding for much of the United States Agency for International Development's (USAID's) current economic development efforts in Jordan, especially in the politically sensitive water sector.

Foreign Military Financing

A total of \$200 million in appropriations -- \$50 million in FY 1999, \$50 million in FY 2000, and \$100 million in FY 2001 -- is requested to help meet key modernization and readiness requirements of the Jordanian Armed Forces (JAF). Those requirements include procurement of spare parts and services to maintain U.S. equipment already in inventory, replacement of JAF munitions stocks, the upgrade of the HAWK air defense system with the procurement of additional missiles and the upgrade of selected units to PIP-3 configuration, modernization of ground forces with anti-armor systems, and the improvement of border security with training and selected equipment.

I recommend that you designate the above requests for FY 1999 as emergency requirements pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

This transmittal also includes appropriations language for the other Wye supplemental requests included in the Budget that is identical to the language in the Budget, except for the removal of the Jordan-related language.

I have carefully reviewed these proposals and am satisfied that they are necessary at this time. Accordingly, I join the Secretary of State, the Secretary of Defense, and the USAID Administrator in recommending that you transmit these proposals to the Congress.

Sincerely,

Jacob J. Lew  
Director
